NeutroSoul

June 2021 - Jan 2023

Front-end Developer

Amritsar, India | Part - time

- Used Figma for creating captivating designs. Proficient in coding responsive interfaces using CSS3, SCSS, and React.
- intuitive booking systems, particularly in healthcare, by integrating the front-end and back-end to ensure smooth session scheduling.

Projects

Talkive App (live) (Github) (Figma)

Jul. 2023 - Ongoing

Real-time Social Media web application

[React.js](#) , [Express](#) , [Node](#) , [mongodb](#) , [Socket.io](#)

- Developed a MERN Stack-based real-time chat application, incorporating features like OTP verification, password reset, real-time chats, and advanced security measures using bcrypt.js.
- Enhanced user interface with React and Redux for frontend, real-time connections with socket.io, and a dynamic theme feature offering four colour themes with light and dark modes.

Town of Book (live) (Github)

Sep. 2022

e-commerce store

[Html](#) , [JavaScript](#) , [Scss](#) , [Next.js](#) , [Node](#) , [Express](#) , [Mongodb](#)

- **version 2 - UI Focused** : Designed beautiful UI in Figma and implemented, Built a full-stack web app using Next.js and MongoDB with CRUD operations **see live here**
- **version 1 - Functionality Focused** : Created a fully functional website which supports all automated emails, and authentication features including saving photos to database in base64 char. **see live here** (it's hosted for free and may take a moment for the initial load.)
