•JavaScript •TypeScript •Java
FrameWorks
• SASS • EJS • React.js •Next.js
•Firebase •jQuery • Node.js • Three.js
UI DESIGN :
Figma, Canvas
OTHERS:
•linux •VMware • Git •JSON
•Github •Agile system • MongoDB

EXPERIENCE

WORK RIGHT PVT LTD (CHAABI) | FRONT-END DEVELOPER
JULY 2023 - PRESENT | GURGAON, INDIA | FULL - TIME

- **Crafted Complex and Attractive UI:** I was responsible for developing visually appealing and intricate user interfaces using React/Next, along with CSS/SCSS and other JavaScript tools.
- **Created a responsive Admin Panel:**Created a highly responsive Admin Panel by integrating seamless APIs and incorporating interactive data visualization using ApexCharts, resulting in a 40 percent increase in data accessibility and informed decision-making for cross-functional teams.
- **Delivered Investor-Focused Landing Page:** Designed and developed a responsive Landing Page for investors in just two weeks, resulting in 25 percent increase in investor's attention.
- **Everything from scratch :** There i created each component from scratch like accordion , swipers , animation ,..etc from scratch.
- **Ready To learn and teach :** I also supported the content team by assisting in adding user friendly content to the website.

A2IT.PVT LTD | MERN STACK DEVELOPMENT
JAN 2023 - JUNE 2023 | MOHALI, INDIA | INTERNSHIP

- **MERN Stack Proficiency:** Skilled in full-stack web development with MongoDB, Express.js, React.js, and Node.js.
- **Real-World Client Projects:** Built 2 websites, showcasing practical MERN stack expertise.
- **Strong Problem-Solving Communication:** Effective in resolving challenges and collaborating with clients for successful project delivery.

NEUTROSOUL | FRONTEND DEVELOPER
JUNE 2021 - JAN 2023 | AMRITSAR, INDIA | PART - TIME

- Skilled in Figma for creating captivating designs. Proficient in coding responsive interfaces using CSS3, SCSS, and React.
- intuitive booking systems, particularly in healthcare, by integrating the front-end and back-end to ensure smooth session scheduling.

PROJECT (VISIT MY GITHUB FOR MORE)

MY PORTFOLIO (LIVE) (GITHUB) (FIGMA)

- This is well Designed and Developed and has a simple but eye catchy UI.
- Designed Everything from scratch and implement using SCSS
- This project increase my attention rate to the hrs by 40 percent.
- This is created using Next js, MongoDB, SCSS and some libraries like clipboard, Mongoose, Nodemailer, etc.

TOWN OF BOOKS (LIVE) (GITHUB)

- **version 2 - UI Focused :** Designed beautiful UI in Figma and implemented, Built a full-stack web app using Next.js and MongoDB. see live here
- **version 1 - Functionality Focused :** Created a fully functional website who supports all automated emails, and authentication features including saving photos to database in base64 char. see live here (it's hosted for free and may take a moment for the initial load.)
